## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lee Wright on 1/22/2008.

The application has been amended as follows:

1.1 In Claim 4, line 18, **add** --and-- between "said electroconductive polymer" and "said metal".

### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The closest known prior art known to the Examiner are listed on the attached PTO 892 and 1449 forms. Geer et al. and Buckley et al. (US Patent 5286415) both teach compositions containing water, conductive particles, and metal particles. However, neither reference teaches a specific step wherein the formed oxide particles diffuse into the conductive polymer matrix.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
